

Addendum for Multisport Module Completion

The WCH Competition Development evaluation outlines the need to complete nine multisport modules and three online evaluations prior to undergoing the in-competition evaluation. These modules are as follows:

Multisport NCCP modules

- Advanced Practice Planning
- Coaching and Leading Effectively
- Developing Athletic Abilities
- Manage a Sport Program
- Leading Drug-free Sport
- Psychology of Performance
- Managing Conflict
- Performance Planning (recommended to be done before Advanced Practice Planning)
- Prevention and Recovery

NCCP Online Evaluations

- Leading Drug-free Sport Online Evaluation.
- Managing Conflict Online Evaluation.
- Make Ethical Decisions Online Evaluation

WCH recognizes that there are many challenges to completing these modules and has approved a process by which the Competition Development Evaluation process can take place. For individuals who wish to be evaluated but have not completed the multisport requirements, the following is the process to be followed:

1. Complete at minimum 6 of the 9 required multisport modules, and complete three Online Evaluations.
2. Submit to the WCH Coach Committee Director tcottrell@cwfhc.ca and your Competition Development evaluator the request to be evaluated without the multisport module completion. In this request include the multisport modules completed and plan for completion of remaining modules.
3. Submit your notice of completion of all modules within 120 days following the evaluation date to the WCH Coach Committee Director tcottrell@cwfhc.ca and your Competition Development evaluator.
4. Failure to complete the multisport modules within 120 days of the evaluation date will require the candidate to repeat their Competition Development evaluation the following year.
