NATIONAL TEAM ELIGIBILITY PROCESS

Events occurring May 1, 2022 to December 31, 2022

Approved

October 12, 2021

V1

The WCH Executive Committee approved this document on October 12, 2021. This document will be updated on an annual basis. The change to date will bring the cycle back to the calendar year where team selection criteria will be released in June along with AAP markers.

Reviewed and Approved By:

Craig Walker, President WCH

Jason MacLean, VP Technical WCH

Richard Mason, VP Administration WCH

Deanne Friesen, Secretary/Treasurer WCH

PURPOSE:

The purpose of this document is to provide athletes, coaches and officials a step-by-step outline of qualifications to be eligible for selection to WCH's international teams and represent Team Canada. It is important to note for senior athletes, this document is limited to eligibility determination only and is not used ranking or funding criteria.

PHILOSOPHY ON TEAM CANADA ELIGIBILITY:

WCH is committed to growing the sport of weightlifting across the country. To accomplish this goal, we believe that athletes must have reasonable opportunities to participate in Local, Regional, National, and International events as they improve their skills and abilities. This is aligned with the Long-Term Athlete Development protocol that was established for the sport of weightlifting.

Setting standards for achievement are paramount to this process as they provide athletes and coaches with clear expectations and guidelines about the required performance to be selected for events.

WCH takes the view that selection should reflect current performance and athlete potential while ensuring a competitive position at all international events.

STANDARD IDENTIFICATION:

WCH is using the following criteria to establish standards for the respective weight classes and age categories:

SENIOR

2022 Senior Standards are based on the 2021 standards, however based on feedback, they have been adjusted such that a lower weight class is not expected to exceed the total or a higher weight class in any situation.

JUNIOR

Due to low participation rates at the Junior World Championship as well as a lack of international competitions where Junior athletes had an opportunity to complete, the Junior standards will remain unchanged this year.

YOUTH

Due to low participation rates at the Youth World Championship as well as a lack of international competitions where Youth athletes had an opportunity to complete, the Youth standards will remain unchanged this year.

EXCEPTIONS:

WCH reserves the right to adjust standards where the results used for calculation have a clear outlier that significantly impacts the calculated averaged. Any adjustments will be noted in the document that is released annually. The intent behind making the adjustment is to ensure Canadian athletes are not penalized for a single result within their designated weight category, thus providing them with fair opportunities to compete.

MINIMUM THRESHOLD OF PERFORMANCE (MTP)

Selecting athletes for various levels of competition requires multiple considerations. Primary consideration will be given to athletes seeking to qualify for the Olympics, Commonwealth Games, and/or Pan American Games. The philosophy for all other decisions will be based on athlete performance relative to the standards, with minimum thresholds of performance required for certain levels of competitions. Each year, the Minimum Threshold for Performance will be set for the following three categories of events:

WORLD AND CONTINENTAL CHAMPIONSHIPS (ELITE LEVEL)

- IWF World Championships
- IWF Junior World Championships
- IWF Youth World Championships
- Pan American Games
- Commonwealth Games

MULTI-SPORT GAMES AND IWF GRAND PRIX (INTERNATIONAL LEVEL 2)

- Pan American Championships
- Junior Pan American Championships
- Youth Pan American Championships
- Youth, Junior and Senior Commonwealth Championships
- FISU World University Games

OTHER INTERNATIONAL COMPETITIONS (INTERNATIONAL LEVEL 1)

- American Open Series
- FISU World University Championships

- Various Invitational events as available from time to time

There are various events held annually at the local, regional, and international levels. Many of these events have standards set that are outside of WCH's control. Where a competition has established standards that exceed those established by the WCH, the competition standards will prevail. Where athletes wish to compete at an international event not listed above, WCH will determine which qualification level will apply based on the information available at the time.

Minimum Threshold of Performance for National Championships will be established at the same time as the standards included within this document and will be published on the website for public viewing.

QUALIFYING TO REPRESENT TEAM CANADA

To be considered for an international team you must meet the following minimum requirements:

YOU MUST BE A CITIZEN OF CANADA OR A LANDED IMMIGRANT AND RESIDE IN CANADA FOR THE PAST 12 MONTHS

If dual citizenship is held, your sport nationality must be registered as Canada with the IWF or other applicable body, at the time of the final qualification event. Exceptions may be made to the residency requirement for students studying abroad.

YOU MUST HAVE A VALID CANADIAN PASSPORT

An athlete must possess a Canadian Passport with an expiration date no less than 6 months after the end of competition, or the entry requirement of the host nation, whichever is greater.

DOPING POOL REGISTRATION

You must be registered in the ADAMS system with Whereabouts completed for the required period prior to the competition through to the final day of the competition. The required period for most international competitions is two months. For world championship events and major games, the period is three months.

YOU MUST BE THE CORRECT AGE FOR THE COMPETITION

The IWF recognizes four (4) age groups:

Youth: 13-17 years of age

Junior: 15-20 years of age

Senior: 15+ years of age

Masters: 35+ years of age

All groups are calculated based on participant's age on December 31 of the year the competition takes place.

MEMBERSHIP

Athletes must be current members of a PSO and in good standing to compete.

ACTIVE COMPETITOR

Athletes must be actively training and must compete at least once during the qualification period at a meet subject to doping controls.

SELECTION TO A TEAM

WCH will select, by name, at the end of the qualifying window for any event, the maximum number of athletes per gender permitted by the Organizing Committee (generally limited by the IWF rules to ten (10) athletes per gender).

The athlete with the highest % of the Standard for each weight category, provided they meet the minimum threshold of performance, will be named to the team.

Additional athletes will be named to the team based on % of standard across each weight category, with a maximum of two (2) per IWF bodyweight category.

A further 2 athletes who have the highest % of the standard will be named as reserve athletes. One reserve may be the "3rd" in the bodyweight category and a second who has the highest % standard score regardless of bodyweight category. If invites are declined, CWFHC will proceed down in order of % standard until either 10 athletes (or the maximum permitted for the competition, whichever is greater) have been named or all athletes meeting the MTP have been identified.

In the event an athlete meets the MTP in more than one bodyweight category, the highest individual % of standard by weight category will be considered, unless the athlete declares that they wish to use the lower % of standard for the other weight category.

In the event an athlete who qualifies wishes to change to a higher bodyweight category, they may do so provided that their total is not less than another athlete in that category and there are not already TWO athletes selected in that category.

In the event that % Standard scores are tied, the athlete that achieved the total first during that qualifying period will be selected. This aligns with the IWF rules for breaking ties in a competition.

FUNDING

WCH will prepare an annual budget outlining available funding for athletes. It is our desire to fund the top 2 athletes in both male and female categories directly from our Sport Canada and/or Canadian Olympic Committee eligible athlete funding blocks when a Team Canada delegation is being sent to a competition. Due to funding constraints this may not be possible. Athletes may, however, choose to attend the competition that they have been selected for at their own expense. At a minimum, the WCH will attempt to fund the Junior and Senior World Championships

RIGHT OF AMENDMENT

WCH reserves the right to change the rules if the IWF or IOC changes any applicable rules. WCH will notify athletes and coaches promptly of any such changes.

INTERNATIONAL TEAM QUALIFICATION PERIODS

Qualification Periods for International events will be based on competition dates. The following table identifies the qualification periods for each type of competition (i.e. International 1, 2, Elite) as well as the minimum amount of notice for Team selection.

Competition Level	Qualification Period	Team Selection Notification
International 1 and International 2	8 months prior to team selection cutoff	45 Days prior to competition date
Elite	6 months prior to team selection cutoff	60 Days prior to competition date

Due to the lack of certainty around competitions due to COVID 19, changes may be made to the qualification periods based on athlete access to qualifying competitions.
